

# Research Analyst – Agriculture sector

Amsterdam or any of our offices in East Africa

## Requirements in a nutshell

Education:	Master's degree in Economics, Development, Agriculture or related fields with a strong component of quantitative data analysis
Languages:	English
Must-have:	Quantitative data analysis skills in Stata, strong interest in agriculture, and excellent coordination skills
Location:	Any of our offices in Amsterdam, Kigali, Nairobi, Kampala, Addis Ababa, and Dar es Salaam.

## Summary

We are looking for a new Analyst to join our team and focus on our portfolio of projects in the Agriculture sector. The role is based in Amsterdam or in any of our offices in East Africa (Kigali, Nairobi, Kampala, Addis Ababa, and Dar es Salaam).

In the Netherlands, candidates must have EU-EAA nationality or have an existing working permit for the Netherlands. To apply for this vacancy in Kenya or Rwanda, candidates must be Kenyan or Rwandan nationals.

## About Laterite

**Laterite is a data, research and analytics firm specialized in complex development challenges.** We work with universities, global think tanks, international NGOs, multilateral donor organizations, and government ministries and agencies. Our clients include, for example, the World Bank, USAID, TechnoServe, Promundo, the Mastercard Foundation, and several UN agencies.

**We currently have offices in the Netherlands, Rwanda, Ethiopia, Kenya, Uganda, Tanzania, Sierra Leone, and Peru.** The team brings together more than 80 full time local and international staff, as well as 1,000+ enumerators across all countries. We are proud to be a culturally diverse organization, and we welcome applications from groups currently under-represented in our team. Learn more: [www.laterite.com](http://www.laterite.com)

**We work in socio-economic development research projects.** We believe that impact is a long-term endeavour that requires being embedded in the local context. Delivering high-quality research requires building local teams and data collection systems, knowing the country, and establishing close working relationships.

**One of Laterite's key strategic goals is to create a collaborative and rewarding working environment for our staff,** where every team member feels engaged, represented, and heard. Laterite is committed to create opportunities for learning and career development within the team and across our offices.

**Laterite is committed to creating a diverse environment and is proud to be an equal opportunities employer.** All qualified applicants will receive consideration for employment without regard to race, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age or veteran status.

### **What you will do:**

We are looking for a new Analyst to join our team and focus on our portfolio of projects in the Agriculture sector. Our new colleague will:

- Work on research projects – supporting the design of research instruments and research designs, conducting quantitative and qualitative analysis, drafting sections of reports, and keeping clients updated on progress.
- Contribute to quality assurance tasks – working closely with the field teams to monitor and clean incoming survey data.
- Contribute to analysis and reporting – together with other research team members working on a project
- Collaborate with the program managers of a large INGO in the coffee sector to increase the impact of their programs.

As part of our Research Team, you will be able to develop skills and experience in:

- Technical research design, including sampling and impact evaluation methodologies.
- Project management and client communication.
- Data analysis, statistical techniques and coding.
- Report writing: drawing insights from data and presenting them in a client-ready, consultancy quality format.

### **What you will bring:**

- A completed Master's degree in Economics, Agricultural Economics or related fields
- One year of professional experience with similar tasks. (We are happy to consider internships, work on dissertations or within an academic research group for this, if you can show us how your experience meets what we are looking for.)
- Strong quantitative data analysis skills and proficiency in Stata
- Experience working with ODK-based platforms (e.g. SurveyCTO, ODK, CommCare)
- Excellent written and oral communication skills in English

In addition, we welcome:

- Previous work experience in Sub-Saharan Africa.
- Previous experience working on agriculture projects.
- Organizational and interpersonal skills, self-motivation and drive to work in a collaborative environment.
- Experience with Python

### **What's in it for you?**

Laterite offers a competitive remuneration package, including medical insurance and 21 days of annual leave. We are also committed to supporting our staff's learning, providing an annual learning budget of up to \$500 per person and 5 days of time off for professional learning each year. We also provide remote work options in accordance with Laterite's remote work policy.

**The starting salary for this role is \$1,940 NET per month.** The exact salary grade will be determined based on the selected candidate's experience and performance in interviews. Salaries are pegged against the pay matrix. There is ample opportunity for growth both in terms of salary scales and roles. Promotions at Laterite are reviewed during our performance evaluations.

### **What next?**

#### **1. Verbal Reasoning and Quantitative Assessment**

The first step is to complete a 30-minute verbal reasoning and quantitative assessment for which no special preparation is needed.

Link to the assessment: <https://form.jotform.com/233461687818569>

#### **2. Submit application**

Successful candidates will then be invited to upload their CV and cover letter via our online application system.

#### **3. Analytical assessment**

Candidates who meet the minimum requirements will be invited to complete an analytical assessment to gauge their capacity to perform statistical analysis on a dataset and present the findings in a short document (using STATA, R, or Python).

#### **4. Interviews**

Successful candidates will then be invited to a first interview. The interview stage will consist of three rounds of interviews.

### **Deadline**

Applications will be considered on a rolling basis. Details on rolling applications can be found on the website: <https://www.laterite.com/vacancies/>
